

10/02/25

Dear Parents/Carers,

Subject - Rescheduled Teacher Training Conference

I am writing to inform you about the postponement of our recent teacher training conference, which was originally scheduled for 6th January 2025. Unfortunately, due to adverse weather conditions and travel challenges faced by some of the key trainers travelling from the North, we were unable to proceed as planned. On this day, however, teachers made valuable use of their time by completing school improvement work in their individual schools.

The conference was designed to cover three key areas that are vital to our continuous development as a Trust -

- Developing teachers' ability to support children with Oracy.
- Exploring the use of AI in technology to enhance learning.
- Improving teachers' understanding to support pupils with mental health challenges.

This training is a crucial step in equipping our staff to make the best use of technology in the classroom. As we aim to provide every child in KS2 and an increasing number in KS1 with a laptop and an individual learning platform, the use of AI will allow us to personalise learning experiences and maximise educational outcomes for your children.

I am writing to inform you that the Trustees have approved an additional Training Day to replace the cancelled event. This will take place on Friday, 11th April 2025, which we have scheduled on the last day of term for your convenience.

We appreciate your understanding and support in this matter. This training will help ensure that we continue to provide your children with the highest standard of education, supported by innovative and effective use of technology.

Thank you for your cooperation and partnership in supporting our Trust's vision for the future. Should you have any questions or concerns, please do not hesitate to contact me.

Yours faithfully,

Charlie Chambers
Director of Education
